1. Síntese

Através da presente Norma procede-se à atualização da Norma n.º 10/AD&C/2018, na qual foram apresentados contributos para o reporte obrigatório dos Instrumentos Financeiros (IF) implementados pelos Programas Operacionais FEDER e Fundo de Coesão (FC), como parte integrante dos respetivos Relatórios Anuais de Execução (RAE).

Nesta atualização tem-se em consideração a implementação dos IF no Portugal 2020 no ano de 2018, incluindo agora os contributos para o reporte dos IF co financiados pelo Fundo Social Europeu (FSE), através dos Programas Operacionais COMPETE2020 e Capital Humano.

Tal como verificado no ano transato, para além das considerações iniciais, o foco destas orientações encontrase nos Anexos 2 e 3 os quais correspondem aos *templates* da Comissão Europeia (CE) adaptados pela AD&C à estrutura de implementação dos Instrumentos Financeiros, via Fundo de Fundos (FdF) e sem recurso ao FdF, respetivamente. Será com base nos elementos transmitidos pelas Autoridades de Gestão nestes templates que se procederá ao reporte dos IF em SFC2014, enquanto parte integrante dos RAE.

2. Enquadramento

Nos termos do artigo 46.º do Regulamento (UE) n.º 1303/2013 (1), de 17 de dezembro, do Parlamento Europeu e do Conselho, que estabelece as disposições comuns aplicáveis aos FEEI (RDC), as Autoridades de Gestão (AG) devem apresentar anualmente um relatório relativo à implementação dos instrumentos financeiros (IF), o qual constitui informação anexa aos respetivos relatórios de execução.

Os elementos que devem integrar esta prestação de informação constam do n.º 2 do citado artigo 46.º, sendo especificados no Anexo I do Regulamento de Execução (UE) n.º 821/2014 (2) , 28 de julho, da Comissão doravante designado por *template* - constituindo-se como anexo ao presente documento.

Considerando que a transmissão de informação entre as Autoridades de Gestão e a Comissão Europeia (CE) se processa através do sistema de informação SFC2014, aplicando-se este requisito à apresentação do Relatório Anual de Execução (RAE) dos Programas Operacionais (PO), verifica-se que o *template* em questão se encontra replicado neste sistema, enquanto parte integrante do reporte anual relativo à implementação dos Programas.

Tal como sucedeu no ano transato, a Nota de Orientações relativa ao reporte dos instrumentos financeiros no âmbito dos Programas Operacionais do Portugal 2020, que agora se apresenta, bem como os respetivos anexos, são complementares às orientações relativas à elaboração dos Relatórios Anuais de Execução dos Programas Operacionais.

⁽¹⁾ Relevam para este efeito as alterações aprovadas pelo Regulamento (UE, Euratom) 2018/1046 do Parlamento Europeu e do Conselho, de 18 de julho de 2018 (OMNIBUS).

⁽²⁾ Cujas últimas alterações foram confirmadas pelo Regulamento de Execução (UE) 2019/255 da Comissão, de 13 de fevereiro de 2019 (relaciona-se com o OMNIBUS).

Considerando que o preenchimento destes *templates* continua a suscitar dúvidas, apresentando alguma complexidade, justifica-se individualizar em detalhe o seu preenchimento através da clarificação dos requisitos de informação de alguns campos, naquele que será um processo contínuo e naturalmente sujeito a revisão, no mínimo uma vez por ano aquando da preparação dos RAE, bem como no seguimento de alterações que a este nível venham a ser introduzidas, nomeadamente as decorrentes da análise efetuada em sede do *Expert Group for the European Structural and Investment Funds* (EGESIF), da Comissão Europeia.

É com base nos elementos apresentados pelos vários Estados-Membros, em sede de relatório anual de execução, que a Comissão Europeia elabora uma síntese sobre a utilização e implementação dos IF a qual é objeto de publicitação, após envio ao Parlamento Europeu e ao Conselho, pelo que a garantia e fiabilidade dos dados transmitidos nesta sede assume particular relevância.

Em termos de referências documentais e normativas da União, são de destacar:

3. Estrutura do template

Dado que o *template* constitui a base do reporte dos instrumentos financeiros, sendo os requisitos na prestação desta informação os que constam do número 2 do artigo 46.º do RDC, pode estabelecer-se a seguinte correspondência:

Alíneas do número 2 do artigo 46.º do RDC	Grupos do <i>template</i> (3)
a) Identificação do programa e da prioridade ou medida a título da qual é concedido o apoio dos FEEI	I. Identification of the programme and priority or measure from which support from the ESI Funds is

The performance of the financial instrument, including progress in its set-up and in selection of bodies implementing the financial instrument (including the body implementing a fund of funds)
g) Os juros, e outras receitas, gerados pelo apoio dos FEEI ao instrumento financeiro, e recursos de programa reembolsados aos instrumentos financeiros por conta de investimentos, como referido nos artigos 43.º e 44.º e montantes utilizados para o tratamento diferenciado, tal como referido no artigo 43.º-A	VII. Interest and other gains generated by support from the ESI Funds to the financial instrument, programme resources paid back to financial instrument from investments as referred to in Articles 43 and 44, amounts used for differentiated treatment as referred to in Article 43a ()

⁽³⁾ Por uma questão de prudência e segurança, optou por se manter o template em inglês, garantindo-se uma maior uniformidade na terminologia específica dos IF que eventualmente poderia ser colocada em causa pela tradução do documento.

Cumpre ainda referir que os requisitos de reporte dos IF são ajustados em função dos anos em que se apresentam os Relatórios Anuais de Execução, sendo os reportes apresentados nos anos de 2017, 2019, bem como o final, os mais exigentes e completos.

4. Os templates adaptados - base para o reporte anual relativo à implementação dos IF

A implementação dos instrumentos financeiros obedece a uma estrutura mais ou menos definida e que no limite terá três grandes grupos:

Fundo de Fundos (FdF) e respetivo Gestor

Instrumento Financeiro (IF) e respetivos intermediários

Produtos e respetivos destinatários finais

Os instrumentos financeiros em implementação em Portugal a 31 de dezembro de 2018 (com Acordo de Financiamento assinado) obedecem à seguinte estrutura:

- Fundo de Fundos Instrumento Financeiro específico implementado através de FdF Produtos aplicados em destinatários finais, no caso dos IF Empresas, IF Reabilitação Urbana e IF Inovação Social (FIS)
- Instrumento Financeiro específico implementado sem FdF Produtos aplicados em destinatários finais, no caso do IF Estudantes Ensino Superior (IF_EES2020)

Tal como salientado na Norma de 2018, tendo em conta que o *template* anotado da Comissão tem uma lógica de preenchimento "na horizontal", agregando os campos comuns aos vários níveis de preenchimento, nem sempre

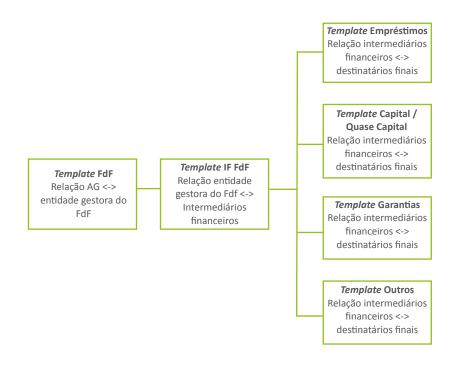

sendo percetível o que se aplica ou não a um determinado nível, considerámos útil separar a informação por grandes grupos, o que permitirá identificar os campos que relevam em particular para cada nível.

Assim, a informação enviada em anexo desagrega-se em três templates:

- 1. *Template* anotado da Comissão, na última versão revista pelo EGESIF, comunicado aos Estados-Membros em 29/05/2017;
- 2. *Template* adaptado pela AD&C para implementação de instrumentos financeiros por via de Fundo de Fundos, que contempla também as alterações decorrentes do OMNIBUS;
- 3. *Template* adaptado pela AD&C para implementação de instrumentos financeiros sem Fundo de Fundos, que contempla já as alterações decorrentes do OMNIBUS.

Tendo em conta as opções de implementação dos IF a 31/12/2018, o *template* 3 (no caso do IF_EES2020) ou o *template* 2 (nos restantes) deverá ser replicado e estruturado para reporte da informação que releva neste âmbito.

O *template* adaptado relativo à <u>implementação de instrumentos financeiros por via de Fundo de Fundos</u> encontra-se organizado em 6 grupos através dos quais se procuram cobrir todos os níveis de reporte:

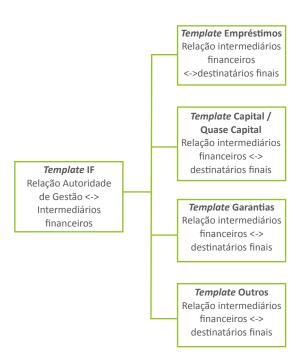

Ou seja:

- Template FdF: agrega os campos com informação a reportar anualmente ao nível do FdF.
- Template IF_FdF: agrega os campos com informação a reportar anualmente ao nível do instrumento financeiro implementado por via do FdF.
- Template Produto Empréstimo: agrega os campos com informação a reportar anualmente ao nível do Produto Empréstimo (se aplicável).
- Template Produto Capital: agrega os campos com informação a reportar anualmente ao nível do Produto Capital (se aplicável).
- Template Produto Garantia: agrega os campos com informação a reportar anualmente ao nível do Produto Garantia (se aplicável).
- Template Produto Outros: agrega os campos com informação a reportar anualmente ao nível do Produto Outros (se aplicável).

Tendo em conta as opções de implementação dos instrumentos financeiros nacionais até à data, pelo Produto Outros entende-se a combinação com outros apoios numa mesma operação apoiada por instrumentos financeiros. Referimonos em concreto a subvenções, bonificações de taxas de juros e bonificações de comissões de garantia, que só serão mobilizadas em conjunto com outros produtos disponibilizados pelo Programa, nomeadamente Empréstimos e Garantias, numa única operação, entenda-se pacote financeiro.

O *template* adaptado relativo à <u>implementação de instrumentos financeiros sem recurso a Fundo de Fundos,</u> instrumento financeiro específico, encontra-se organizado em 5 grupos através dos quais se procuram cobrir todos os níveis de reporte:

Ou seja:

- Template IF Específico: agrega os campos com informação a reportar anualmente ao nível do instrumento financeiro implementado sem recurso a FdF.
- Template Produto Empréstimo: agrega os campos com informação a reportar anualmente ao nível do Produto Empréstimo (se aplicável).
- Template Produto Capital: agrega os campos com informação a reportar anualmente ao nível do Produto Capital (se aplicável).
- *Template* Produto Garantia: agrega os campos com informação a reportar anualmente ao nível do Produto Garantia (se aplicável).
- Template Produto Outros: agrega os campos com informação a reportar anualmente ao nível do Produto Outros (se aplicável).

Tal como verificado ao nível do FdF, tendo em conta as opções de implementação dos instrumentos financeiros nacionais até à data, pelo Produto Outros entende-se a combinação com outros apoios numa mesma operação apoiada por instrumentos financeiros. Referimo-nos em concreto a subvenções, bonificações de taxas de juros e bonificações de comissões de garantia, que só serão mobilizadas em conjunto com outros produtos disponibilizados pelo PO, nomeadamente Empréstimos e Garantias, numa única operação, entenda-se pacote financeiro.

Para além das adaptações em termos de estrutura para tornar mais percetível os requisitos em matéria de reporte, em complemento às observações da Comissão, são também apresentados nestes *templates* alguns comentários da AD&C, os quais remetem, sempre que aplicável e em complemento às observações da CE, para as notas do EGESIF que se encontram na sua versão final, e como tal publicitadas, cuja leitura se recomenda.

De salientar que para o reporte de 2018 foram também introduzidas colunas nos *templates* adaptados com as validações que o SFC2014 fará aquando do registo da informação em sistema, sendo as mesmas tipificadas como **alerta** (a verde nos *templates* em anexo) ou **erro** (a vermelho nos *templates* em anexo). Considerando que o SFC2014 não permite o envio de relatórios que apresentem **erros**, sugere-se também a leitura atenta destas validações.

5. Algumas notas de preenchimento

Embora os *templates* e as observações da CE estejam em inglês (4), consideramos que o reporte por parte das autoridades nacionais deve ser efetuado em português.

Os dados a apresentar são acumulados e reportam-se ao período que abrange o início da implementação do instrumento financeiro até 31/12 do ano em causa, neste caso, 31/12/2018.

As notas da CE foram mantidas quase integralmente, ou seja, não fazem a distinção dos vários níveis a que se reporta a informação. Essa distinção (FdF, IF, Produto) é feita nas várias folhas dos templates e nas observações da AD&C, pelo que este aspeto deverá sempre ser tido em conta aquando do preenchimento do reporte.

⁽⁴⁾ Por uma questão de prudência e segurança, optou por se manter o template em inglês, garantindo-se uma maior uniformidade na terminologia específica dos IF que eventualmente poderia ser colocada em causa pela tradução do documento.

A informação a transmitir deve ser preenchida na coluna C de cada uma das folhas Excel, observando-se a formatação de cada campo: texto, número e data. A indicação "selection" refere-se a informação que será selecionada em SFC, pelo que deverão ser tidas em conta as opões que constam da coluna B e D para se proceder ao registo da informação aplicável ao instrumento. Sempre que num determinado campo se indique que o mesmo resulta do somatório de outros campos, esse mesmo somatório deverá ser efetuado e apresentado o que facilitará a tarefa de registo e validação dos dados em SFC2014.

Quanto à utilização de "0" no preenchimento do template (e do SFC2014), a mesma deve ter um significado. Ou seja, sempre que algo esteja efetivamente previsto para implementação dos IF mas que ainda não tenha ocorrido, dever ser assinalado com o preenchimento "0".

De salientar também que até ao reporte de 2017, a informação dos IF foi registada em SFC2014 com base nos Acordos de Financiamento assinados entre as AG's e os beneficiários. Assim, para cada um dos acordos assinados foi efetuado um registo autónomo no sistema, sendo que no caso da Instituição Financeira de Desenvolvimento, S.A. (IFD), para cada Prioridade de Investimento (PI), existe um Acordo de Financiamento celebrado, situação que foi também refletida em SFC2014 (registe-se que a obrigação existente é apenas de distinguir os instrumentos financeiros por Eixo Prioritário).

No âmbito da análise subsequente que foi feita ao relatório de 2017 dos serviços da Comissão sobre esta matéria, transmitido aos Estados-Membros em dezembro de 2018, verificou-se que esta metodologia origina leituras que não transmitem de forma clara a implementação dos IF em Portugal.

Ou seja, no caso de um PO que apoia apenas um Fundo de Fundos mas que celebrou três Acordos de Financiamento, de acordo com as PI mobilizadas, foram efetuados em SFC2014 três registos ao nível do Fundo de Fundos, apesar de se tratar sempre do mesmo Fundo de Fundos.

Assim, no caso de alguns instrumentos geridos pela IFD, a forma de reporte será ajustada para o nível de Eixo Prioritário, o que significará agrupar a informação de vários acordos de financiamento ao nível do Fundo de Fundos, tendo esta opção sido já validada pelos serviços da Comissão. Solicitaram ainda os serviços da Comissão que esta situação fosse devidamente assinalada no reporte, pelo que se sugere que no campo 11.1 da estrutura do relatório anual, apenas para os instrumentos da IFD em causa, seja incluído o seguinte texto:

"Por forma a transmitir de forma clara a implementação dos IF em Portugal, foi consolidada a informação reportada ao nível do Fundo de Fundos."

6. Alterações ao SFC2014

Não será disponibilizado novo *template* anotado pela Comissão uma vez que as alterações verificadas, comparando com o ano anterior, não são significativas, pelo que a base de trabalho para este exercício mantém-se inalterada, correspondendo aos ficheiros que se remetem em anexo.

No entanto, tal como já referido, foram introduzidas, em SFC2014, novas validações de conformidade dos dados preenchidos, de entre as quais se destacam as relativas à **obrigatoriedade de preenchimento dos campos da alavancagem e dos indicadores**. Alertamos para a necessidade de correção das situações de erro, já que as mesmas impedem a validação e envio dos relatórios em SFC.

7. Alguns elementos de monitorização

Por fim, consideramos que se mantêm atuais as principais etapas de monitorização da implementação dos IF, naturalmente assentes na informação recolhida ao nível do *template* (5).

Assim, os campos que podem ser utilizados nesta monitorização são:

Nº do campo	Conteúdo	Nível de reporte
30	Date of completion of the ex ante assessment	Geral
31	Selection of bodies implementing financial instrument	Nível FdF e Instrumento Financeiro
13	Date of signature of the funding agreement with the body implementing the financial instrument	
15	Total amount of programme contributions paid to the financial instrument	Nível FdF e Instrumento Financeiro
24	Total amount of programme contributions committed in loans, guarantee, equity, quasiequity or other financial product contracts with final recipients	Nível de cada um dos Produtos disponibilizados aos destinatários finais
25	Total amount of programme contributions paid to final recipients through loans, micro-loans, equity or other products, or, in the case of guarantee, committed for loans paid to final recipients, by product	Nível de cada um dos Produtos disponibilizados aos destinatários finais

Tem-se assim uma perspetiva das principais fases de implementação dos IF, desde a fase inicial associada à avaliação exante, até à informação ao nível das aplicações feitas nos destinatários finais, que consistirá no objetivo último a atingir por via destes instrumentos.

⁽⁵⁾ Para além de outras fontes de informação que são periodicamente preenchidas e transmitidas aos serviços da CE.

	The report on implementation of financial instrum	nents shall include, fo	or each financial instrument the following information.	
N.º	Information required for each financial instrument	Required format information/data	Instructions	Observações AD&C
a	b	С	d	e
II.	Description of the financial instrument and impler	mentation arrangeme	ents (Article 46(2)(b) of Regulation (EU) No 1303/2013)	
5	Name of the financial instrument	text	Official name of the financial instrument according to Article 4(4) of the CIR 821/2014.	Deve ser indicado o nome do instrumento financeiro específico, implementado por via do FdF. Sem prejuizo d reporte dos anos anteriores, e na sequência da harmonização feita ao nível do reporte dos IF dirigidos às empresas (de forma agregada), consideramos que a este nível se deve fazer a distinção entre os vários instrumentos de capital, da seguinte forma: - Linha de Financiamento a Entidades Veículo de Business Angels; - Linha de Financiamento a Uperações de Capital de Risco; - Linha de Financiamento a Operações de Capital Reversível; - Linha de Financiamento Fundo 200M. No caso dos instrumentos de Dívida/Garantia, sugere-se a designação: "Linha Capitalizar Mais". No IFRRU, deverá ser mantida a lógica de preenchimento, com a distinção entre Dívida e Garantia: - IFRRU 2020 IF Dívida; - IFRRU 2020 IF Garantia.
6	Official address/place of business of the financial instrument (name of the country and city)	text	The place of business of the financial instrument may differ from the official address of the financial intermediary under 11.1.2. For example EIB or EIF are located in Luxembourg but place of business of the FoF is located in the Member State.	Neste campo deverá ser indicada a área de abrangência do instrumento, ao nível de NUTS II no caso dos PO's do Continente e NUTS I no caso das RAA e RAM (corresponderá à área de abrangência do PO), na medida em que será necessariamente diferente da morada da entidade beneficiária do Fundo.
8	Type of the financial instrument	Fund of Funds spcefic Fund		Em SFC este é o primeiro campo a preencher, através do qual se indica o nível a que se reporta a informação. As opções são: - Fundo de Fundos; - Fundo Específico de Fundo de Fundos; - Fundo Específico; - Implementação Direta. Neste caso, estaremos ao nível do Instrumento Específico implementado por via de FdF.
8.1	Tailor-made or financial instruments complying with standard terms and conditions i.e. "off-the-shelf instruments"	selection	Selection of only 1 option allowed. The information offered by the system should be either "tailor-made instrument" or "off-the-shelf- instrument". If "off-the-shelf" is chosen the following list should appear: (1) Risk sharing loan (2) Capped guarantee (3) Renovation loan (4) Co-investment facility (5) Urban development fund	Campo de seleção em SFC que no caso de PT a 31/12/2018 deverá ser "tailor-made". Até ao momento não existem IF "off-the-shelf" em implementação em PT.
8.2	Related Fund of funds	selection		Deve ser indicado o respetivo Fundos de Fundos
9	Type of products provided by financial instrument: loans, micro-loans, guarantees, equity, or quasi-equity investments, other financial product or other support combined within the financial instrument pursuant to Article 37(7) of Regulation (EU) No 1303/2013	selection	Selection of at least one from the following list: - loans (with the exception of micro-loans) - micro-loans (< EUR 25,000 and provided to micro-enterprises) according to SEC/2011/1134 final - guarantees - equity - quasi-equity - other financial products - other support combined with a financial instrument	Campo para seleção dos produtos a disponibilizar por via do IF aos beneficiários finais. De salientar que a opção "other support combined with a financial instrument" não deverá ser selecionada de forma isolada, na medida em que a mesma é complementar aos demais produtos disponibilizados, nomeadamente "Empréstimos" e "Garantias". Para uma melhor compreensão dos requisitos aplicáveis à combinação de apoios por via de IF e de outras formas de apoio, recomenda-se a leitura da Nota EGESIF 15_0012-02, de 10/08/2015. Ver igualmente a observação da AD&C no campo 9.2.
9.1	Description of the other financial product	text	Field 9.1 becomes active only if option 'other financial product' is selected in field 9)	Campo disponível se selecionada a opção "other financial products" no campo 9, o que a 31/12/2018 não se aplicava a PT.

9.2	Other support combined within the financial instrument: grant, interest rate subsidy, guarantee fee subsidy pursuant to Article 37(7) of Regulation (EU) No 1303/2013	text	of support in a single operation. (the field becomes active only if option 'other support combined within a financial instrument' is selected in line 9)	Campo a preencher se a opção "other support combined with a financial instrument" for selecionada no campo 9. As opções são: subvenção, bonificação das taxas de juro e bonificação da comissão de garantia. Por subvenção entende-se o designado apoio técnico que é feito ao nível do intermediário financeiro a favor do beneficiário final, sem que haja qualquer repasse para o mesmo. As bonificações das taxas de juro e das comissões de garantia terão de fazer parte do mesmo pacote financeiro dos investimentos feitos ao nível dos beneficiários finais em empréstimos e garantias. Quer isto dizer que a contribuição dos Fundos alocada a um determinado IF servirá, não só para investir ao nível dos beneficiários finais através de empréstimos e garantias, mas também para suportar uma componente que acabará por ser "não reembolsável", através da prestação do citado apoio técnico a favor dos beneficiários finais e da bonificação das taxas de juro e das comissões de garantia, desde que integrados numa única operação. Uma vez mais se sugere a leitura da Nota EGESIF 15_0012-02, de 10/08/2015, na medida em que esta combinação para ser possível, deverá obedecer a determinadas condições e critérios, desde logo estar pevista na avaliação ex-ante.	
10	Legal status of the financial instrument, pursuant to Article 38(6) and Article 39a(5)(b) of Regulation (EU) No 1303/2013 (for financial instruments referred to in Article 38(1)(b) and (c)only): fiduciary account opened in the name of the implementing body and on behalf of the managing authority or separate block of finance within a financial institution	selection	This field becomes available if b) is selected in field 7.2 [NBI the reference should read Article 38(4)(b) (instead of 38(1)(b); this is due to a clerical mistake in the Commission Implementing Regulation (EU) No 821/2014] Selection of one option: (a) fiduciary account; (b) separate block of finance; (c) other entrustment modality by the FoF to financial intermediary(-ies) (in line with the Guidance on implementation options). [NBI Option (c) will be available in SFC2014 in the reporting year 2018. A text box will become available under option (c) where MA will explain the 'other entrustment modality by the FoF to financial intermediary(-ies)). [Under implementation options of Article 38(4)(a) and (b), the body implementing financial instruments can implement them either through a fund of funds or by acting directly as a financial intermediary. A fund of funds will entrust the implementation of Fis to financial intermediaries(s). The CPR does not define the modalities of entrustment by the fund of funds to financial intermediaries. Thus the MA can decide with the fund of funds on the specific form (and report it under option (c)) that this entrustment can take as long as the ownership of resources contributed by MA (i.e. ESI Funds and national co-financing) and the risk of defaults at the level of final recipients stay with the MA and the ESIF programme resources can be traceable down to the level of final recipients. The financial intermediary thus deploys the financial products (such as loans, guarantees and equity) for concrete investments in final recipients.]	As opções a selecionar deverão estar alinhadas com o previsto no Acordo de Financiamento celebrado entre a entidade gestora do FdF e o intermediário financeiro responsável pela implementação do IF específico.

13	Date of signature of the funding agreement with the body implementing the financial instrument	date (format: DD/MM/YYYY)	Date of signature of funding agreement between a managing authority and the body implementing the financial instrument (incl. Fund of Funds) as well between the bodies implementing the Fund of Funds and financial intermediaries .	Deverá ser indicada a data de assinatura do acordo de financiamento entre a entidade gestora do FdF e o intermediário financeiro selecionado para a gestão do IF específico. Dado que se regista o envolvimento de várias entidades na implementação dos IF, deverá ser indicada a data de assinatura de cada contrato, bem como das adendas que entretanto vierem a ser celebradas, sendo que para efeitos de registo em SFC será registada a data mais antiga (o sistema apenas permite um registo).								
IV.	Total amount of programme contributions, by price	ority or measure, paid	to the financial instrument and management costs incurred or management fees	paid (Article 46(2)(d) and (e) of Regulation (EU) No 1303/2013)								
14	Total amount of programme contributions committed in the funding agreement (in EUR)		Total amount of programme contributions committed in the funding agreement signed between a managing authority and a fund of funds or a managing authority and a financial intermediary or a fund of funds and a financial intermediary. Programme contributions (i.e. ESIF + national public and private co-financing) committed in the signed funding agreements should be reported in this field. Other resources (other than programme contributions, e.g. commercial bank resources or additional regional contribution) which do not constitute part of the programme or resources committed from other programmes should not be reported in this field.	A informação a reportar neste campo diz respeito à contribuição do Programa Operacional estabelecida no Acordo de Financiamento, entre o gestor de FdF e o intermediário financeiro selecionado para a implementação do instrumento. Por contribuição do PO entende-se: Fundo + Contrapartida Nacional Pública ou Privada, elegível, ou seja, CT Elegível. Não serão assim considerados outros montantes como recursos adicionais mobilizados através de Bancos, mas apenas as verbas que se encontram associadas ao Programa Operacional / Eixo Prioritário.

Definition of a "SME" according to Article 2.1 of the Commission Recommendation of 2003/361/EC of 6 May 2003, i.e. small and medium-sized enterprises (SMEs) is made up of enterprises which employ less than 250 persons and which have an annual turnover not exceeding EUR 50 million, and/or an annual balance sheet total not exceeding EUR 43 million. According to the definition above this includes the microenterprises reported in 29.2.1	Refere-se ao número indicado em 29 e diz respeito a PME apoiadas pelo IF, isto é com desembolsos efetuados até à data de reporte, neste caso, 31/12/2018.					
29.2.1	out of which microenterprises	number	Total number of microenterprises which signed a contract for a financial product with the financial intermediary, and to which latter effectively made investment / disbursed loan until the end of the reporting period. Definition of a "microenterprise(s)" according to Article 2.3 of the Commission Recommendation of 2003/361/EC of 6 May 2003 i.e. enterprises which employs less than 10 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 2 million. The number in this field cannot be higher than the number in field 29.2.	Trata-se de um subgrupo do campo 29.2. Assim, neste campo deverão ser indicadas, do total de PME do campo 29.9, as microempresas apoiadas.					
29.3	out of which individuals	number	Total number of individuals/natural persons who signed a contract for a financial product with the financial intermediary, and to which the latter effectively made investment / disbursed loan until the end of the reporting period. Natural persons meaning those not covered by the definition of enterprise in the Commission Recommendation 2003/361/EC of May 2003 (Title I, Article 1 of the Annex 1) or not covered by the definition of legal person in the national legislation.	Refere-se ao número indicado em 29 e diz respeito a indivíduos/pessoas naturais apoiadas pelo IF, isto é com desembolsos efetuados até à data de reporte, neste caso, 31/12/2018.					
29.4	out of which other type of final recipients supported	number	Total number of other type of final recipients, which do not fall under the scope of fields 29.1-29.3, but are supported by the respective product.	Refere-se ao número indicado em 29 e diz respeito a outro tipo de beneficiário apoiado pelo IF, isto é com desembolsos efetuados até à data de reporte, neste caso, 31/12/2018.					
29.4.1	description of other type of final recipients supported	text	Description of other type of final recipients, such as municipalities, non-profit organisations,	Campo no qual deverão ser descriminados "outro tipo de beneficiários", como será o caso dos Municípios, organizações sem fins lucrativos ou condomínios.

The amount should be calculated by the system. The amounts of other contributions are the amounts invested directly in final recipients. [Field 38.3 should be relevant only for loan and equity. For guarantee instruments the amounts reported in field 38.3 and its subfields should be zero. Total value of loans actually paid to final recipients in relation to the guarantee contracts signed is already reported in field 26 and should not be reported here.]	Campo que resulta do somatório dos campos 38.3.1 e 38.3.2. Por outras contribuições referem-se os montantes diretamente investidos ao nível dos beneficiários finais.

39	Expected and achieved leverage effect, by reference to the funding agreement								
39.1	Expected leverage effect for loan, by reference to the funding agreement	number	The amounts used for calculating the expected leverage should be based on the amounts in the funding agreements. Leverage is defined as 'the amount of finance to eligible final recipients divided by the amount of the ESIF contribution'. The method of calculating leverage will be described in detail in the Guidance Note on reporting and leverage.	Campo no qual se deverá indicar o rácio de alavancagem expectável com base no Acordo de Participação.					
39.2	Achieved leverage effect at the end of reporting year for loan	number	To be calculated by the system (amounts of programme and non-programme resources mobilised by ESI Funds at the level of final recipients divided by the ESIF paid to final recipients). The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NB! The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cutoff date of 31/12/2017) onwards. [* For the purpose of the reporting exercise 2017 (data with the cut-off date of 31/12/2016) the formulae for the automatic calculation of achieved leverage are applied at the fund level (see formulae at the end of the table)].	Campo de cálculo automático do sistema, com base nas opções e valores registados nos vários campos relativos a cada um dos Produtos associados ao instrumento financeiro.					
			In the structure with fund of funds (FoF/SF) , if loan in 22.1, then $ = \frac{(25.1 + 38.3)}{(25.1 + (125/15_{FGF})^*17_{FGF}^*(14.1_{FGF}/14_{FGF}) + (125/15_{FGF,SF})^*17_{FGF,SF}^*(14.1_{FGF,SF}/14_{FGF,SF})))} $	Fórmula utilizada pelo sistema caso a opção em 22.1 seja "Empréstimo", no modelo instrumento financeiro específico implementado por via de um Fundo de Fundos. Por uma questão de prudência, sugere-se que a fórmula apresentada seja testada, para confirmação do valor que será assumido em SFC.					
39.3	Investment mobilised through investments made by ESIF financial instruments for loan	number (amount in EUR)	The Financial Regulation provides a definition of leverage of the financial instrument which does not capture the total amount of investment mobilised through ESIF financial instruments but rather the financing provided. In order to report on the wider impact of financial instrument it would be useful to have additional information to capture the overall impact of the investment. The total size of the project supported by the ESIF financial instrument should be reported in this field. The total amount of the project, in addition to the financing provided by the financial instrument, may include own contributions of the project promoter or other means of financing raised outside the financial instrument. The amount may also include other support, for example, national grant or a grant from ESI Funds.	Campo opcional no qual se deverá indicar o montante total do projeto apoiado por via do IF, incluindo os recursos próprios do beneficiário final e subvenções e outros apoios combinados com o investimento mobilizado através do IF.

The name of equity should not be confused with the name of the financial intermediary.	O nome do produto de "Capital" disponibilizado pelo instrumento financeiro específico apoiado pelo FdF ao beneficiário final deverá ser indicado neste campo.					
22.1	Type of financial product offered by the financial instrument	Selection	(a) loan (b) guarantee (c) equity (d) other support combined within the financial instrument If the fund of funds (FoF) signed with the body implementing the financial instrument (the financial intermediary) only one funding agreement for different types of loan product (for example: loans for SMEs and microloans), we suggest to group them together in one field 22.1 a). Example: in 2015 FoF signed with the body implementing the financial instrument a funding agreement for two types of loan products: loans for SMEs and for microloans. For this case, field 22.1 a) should be selected only once: together for loans for SMEs and for microloans. If the FoF signed with the same body implementing the financial instrument (the financial intermediary) a separate funding agreement for each type of loan product, the field 22.1 a) should be repeated as many times as many funding agreements for different types of loan products have been signed. Other financial products should be reported under either Loan, Guarantee or Equity.	Indicar que se trata do produto do tipo "Capital".					
24	Total amount of programme contributions committed in equity, quasi-equity contracts with final recipients (in EUR)	number (amount in EUR)	Total amount of commitment in (quasi-) equity participation in enterprises should be reported here, irrespective if the participation has been paid to the final recipient. Generally, if the financial instruments were also financed from other resources (e.g. commercial bank resources or additional public contributions) which do not constitute part of the programme, those resources should not be reported here. This field is used to monitor the progress of instruments, such as urban development funds, where there is a significant time gap between commitment and payment of the full amount to final recipients.	Campo no qual deverá ser indicado o montante da contribuição do Programa comprometida em participações em empresas, ainda que as mesmas não tenham sido pagas aos beneficiários finais. Verbas extra Programa que sejam mobilizadas por outras vias que não o IF, não deverão ser reportadas neste campo.

To be calculated by the system. Only amounts of the programme resources should be reported. Other resources (e.g. commercial bank resources or additional regional contributions) which contribute to this product but do not constitute part of the programme should not be reported here. This row refers to the programme resources effectively disbursed, means paid into the account of the final recipients. Generally resources returned to the operation from investments in final recipients are not considered programme contributions. Consequently, resources returned to the operation and reinvested in final recipients shall not be reported under 25.	Montante total da contribuição do PO transferida para a conta do beneficiário final no âmbito do produto "Capital", resultando este valor em SFC do somatório dos valores dos campos 25.1, 25.2 e 25.3. 39.1	Expected leverage effect for equity or quasi-equity investment, by reference to the funding agreement	number	The amounts used for calculating the expected leverage should be based on the amounts in the funding agreements. Leverage is defined as 'the amount of finance to eligible final recipients divided by the amount of the ESIF contribution'. The method of calculating leverage will be described in detail in the Guidance Note on reporting and leverage.	Campo no qual se deverá indicar o rácio de alavancagem expectável com base no Acordo de Participação.		validate in Financial nstruments for SF/FoF and SF, that element 39.1 is not null	Validate in Financial Instruments for SF/FoF and SF, that element 39.1 is < 20 for guarantee and equity and is < 10 for loan. >> "Unusual value for this type of instrument (>10 for loans, >20 for guarantees or equity). 39.2	Achieved leverage effect at the end of reporting year for equity or quasi-equity investment	number	To be calculated by the system (amounts of programme and non-programme resources mobilised by ESI Funds at the level of final recipients divided by the ESIF paid to final recipients). The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NB! The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cutoff date of 31/12/2017) onwards. [* For the purpose of the reporting exercise 2017 (data with the cut-off date of 31/12/2016) the formulae for the automatic calculation of achieved leverage are applied at the fund level (see formulae at the end of the table)]. Por uma questão de prudência, sugere-se que a fórmula apresentada seja testada, para confirmação do valor que será assumido em SFC.						
39.3	Investment mobilised through investments made by ESIF financial instruments for quasi-equity investment	number (amount ir EUR)	The Financial Regulation provides a definition of leverage of the financial instrument which does not capture the total amount of investment mobilised through ESIF financial instruments but rather the financing provided. In order to report on the wider impact of financial instrument it would be useful to have additional information to capture the overall impact of the investment. The total size of the project supported by the ESIF financial instrument should be reported in this field. The total amount of the project, in addition to the financing provided by the financial instrument, may include own contributions of the project promoter or other means of financing raised outside the financial instrument. The amount may also include other support, for example, national grant or a grant from ESI Funds.	Campo opcional no qual se deverá indicar o montante total do projeto apoiado por via do IF, incluindo os recursos próprios do beneficiário final e subvenções e outros apoios combinados com o investimento mobilizado através do IF.						
40	Value of investments and participations in equity (in EUR)	number (amount ir EUR)	The value of equity investment made with ESIF resources at the end of the reporting year. The book value of the participation according to the applicable accounting rules should be used. Example of calculation: Book value = nominal value of investments +/- fair-value movement - impairments of assets. Changes in terms of value can be calculated in comparison to amounts reported in previous years and additional investments in final recipients The value of equity investment changes over time. This change of value should be reflected in the accounting of the equity fund and the reporting depending on the accounting method. Impairment accounting: Book value = nominal value of investments - impairments of assets Fair value accounting: Book value = nominal value of investments +/- fair-value movement	Campo de especificação dos investimentos feitos em "Equity" por via das verbas dos Fundos.

Example: in 2015 FoF signed with the body implementing the financial instrument a funding agreement for two types of loan products: loans for SMEs and for microloans. For this case, field 22.1 a) should be selected only once: together for loans for SMEs and for microloans. If the FoF signed with the same body implementing the financial instrument (the financial intermediary) a separate funding agreement for each type of loan product, the field 22.1 a) should be repeated as many times as many funding agreements for different types of loan products have been signed. 	The report on implementation of financial instruments shall include, for each financial instrument the following information.							
No.	Information required for each financial instrument	Required format information/data	Instructions	Observações AD&C				
а	b	c	d	e				
27	Number of guaranteed loans signed with final recipients	number		Deverá ser indicado o número de contratos de garantia assinados com os beneficiários finais, ainda que nenhum desembolso de empréstimo associado tenha sido efetuado.				
28	Number of guaranteed loans paid to final recipients	number	Number of <u>guarantees</u> provided to final recipients where amounts have been blocked in the guarantee fund for loans disbursed. The numbers above should not include loan/guarantee/equity or quasi-equity/or other financial products provided from resources returned.	Deverá ser indicado o número de garantias prestadas aos beneficiários finais sempre que as mesmas sejam bloqueadas por desembolso de empréstimo. Os valores a reportar dizem respeito apenas ao primeiro ciclo de investimentos, pelo que investimentos efetuados com montantes restituídos ao IF não devem ser indicados.				
29	Number of final recipients supported by the financial product	number	This field is sum of fields 29.1, 29.2, 29.3 and 29.4.	Campo que resulta do somatório dos campos 29.1, 29.2, 29.3 e 29.4.				
29.1	out of which large enterprises	number	The total number of large enterprises which signed a contract for a financial product with the financial intermediary, and to which the latter effectively made investment until the end of the reporting period. Based on the Commission Recommendation 2003/361/EC of 6 May 2003 and for purposes of this document, by "large enterprises" should be understood the enterprises with more than 250 employees or a turnover of > EUR 50 million / balance sheet total of > EUR 43 million.	Refere-se ao número indicado em 29 e diz respeito a Grandes Empresas apoiadas pelo IF, isto é, com garantias bloqueadas associadas a empréstimos desembolsados até à data de reporte, neste caso, 31/12/2018.				
29.2	out of which SMEs	number	Total number of small and medium-sized enterprises (SMEs) which signed a contract for a financial product with the financial intermediary, and to which the latter effectively made investment/disbursed a loan (or a part of loan) until the end of the reporting period. Definition of a "SME" according to Article 2.1 of the Commission Recommendation of 2003/361/EC of 6 May 2003, i.e. small and medium-sized enterprises (SMEs) is made up of enterprises which employ less than 250 persons and which have an annual turnover not exceeding EUR 50 million, and/or an annual balance sheet total not exceeding EUR 43 million. According to the definition above this includes the microenterprises reported in 29.2.1	Refere-se ao número indicado em 29 e diz respeito a PME apoiadas pelo IF, isto é, com garantias bloqueadas associadas a empréstimos desembolsados até à data de reporte, neste caso, 31/12/2018.				
29.2.1	out of which microenterprises	number	Total number of microenterprises which signed a contract for a financial product with the financial intermediary, and to which latter effectively made investment / disbursed loan until the end of the reporting period. Definition of a "microenterprise(s)" according to Article 2.3 of the Commission Recommendation of 2003/361/EC of 6 May 2003 i.e. enterprises which employs less than 10 persons and whose annual turnover and/or annual balance sheet total does not exceed EUR 2 million. The number in this field cannot be higher than the number in field 29.2.	Trata-se de um subgrupo do campo 29.2. Assim, neste campo deverão ser indicadas, do total de PME do campo 29.9, as microempresas apoiadas.				
29.3	out of which individuals	number	Total number of individuals/natural persons who signed a contract for a financial product with the financial intermediary, and to which the latter effectively made investment / disbursed loan until the end of the reporting period. Natural persons meaning those not covered by the definition of enterprise in the Commission Recommendation 2003/361/EC of May 2003 (Title I, Article 1 of the Annex 1) or not covered by the definition of legal person in the national legislation.	Refere-se ao número indicado em 29 e diz respeito a indivíduos/pessoas naturais apoiadas pelo IF, com garantias bloqueadas associadas a empréstimos desembolsados até à data de reporte, neste caso, 31/12/2018.				
29.4	out of which other type of final recipients supported	number	Total number of other type of final recipients, which do not fall under the scope of fields 29.1-29.3, but are supported by the respective product.	Refere-se ao número indicado em 29 e diz respeito a outro tipo de beneficiário apoiado pelo IF, com garantias bloqueadas associadas a empréstimos desembolsados até à data de reporte, neste caso, 31/12/2018.				
29.4.1	description of other type of final recipients supported	text	Description of other type of final recipients, such as municipalities, non-profit organisations,	Campo no qual deverão ser descriminados "outro tipo de beneficiários", como será o caso dos Municípios, organizações sem fins lucrativos ou condomínios.

39	Expected and achieved leverage effect, by reference to the funding agreement							
39.1	Expected leverage effect for guarantee, by reference to the funding agreement	number	The amounts used for calculating the expected leverage should be based on the amounts in the funding agreements. Leverage is defined as 'the amount of finance to eligible final recipients divided by the amount of the ESIF contribution'. The method of calculating leverage will be described in detail in the Guidance Note on reporting and leverage.	Campo no qual se deverá indicar o rácio de alavancagem expectável com base no Acordo de Participação.				
39.2	Achieved leverage effect at the end of reporting year for guarantee	number	To be calculated by the system (amounts of programme and non-programme resources mobilised by ESI Funds at the level of final recipients divided by the ESIF paid to final recipients). The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NBI The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cutoff date of 31/12/2017) onwards. [* For the purpose of the reporting exercise 2017 (data with the cut-off date of 31/12/2016) the formulae for the automatic calculation of achieved leverage are applied at the fund level (see formulae at the end of the table)].	Campo de cálculo automático do sistema, com base nas opções e valores registados nos vários campos relativos a cada um dos Produtos associados ao instrumento financeiro.				
			In the structure with fund of funds (FoF/SF), if guarantee in 22.1, then $ \frac{26 r_{\text{trainvalue of loans actually paid to final recipients. In relation to the guarantee contracts signed}{(25.1_{\odot}*((25_{\odot}/15_{FoF})^*17_{FOF}*(14.1_{FoF}/14_{FoF}))*((25_{\odot}/15_{FOF/SF})^*17_{FOF/SF}*(14.1_{FOF/SF}/14_{FoF/SF})))} $	Fórmula utilizada pelo sistema caso a opção em 22.1 seja "Garantias", no modelo instrumento financeiro específico implementado por via de um Fundo de Fundos. Por uma questão de prudência, sugere-se que a fórmula apresentada seja testada, para confirmação do valor que será assumido em SFC.				
39.3	Investment mobilised through investments made by ESIF financial instruments for guarantee (Optional)	number (amount in EUR)	The Financial Regulation provides a definition of leverage of the financial instrument which does not capture the total amount of investment mobilised through ESIF financial instruments but rather the financing provided. In order to report on the wider impact of financial instrument it would be useful to have additional information to capture the overall impact of the investment. The total size of the project supported by the ESIF financial instrument should be reported in this field. The total amount of the project, in addition to the financing provided by the financial instrument, may include own contributions of the project promoter or other means of financing raised outside the financial instrument. The amount may also include other support, for example, national grant or a grant from ESI Funds.	Campo opcional no qual se deverá indicar o montante total do projeto apoiado por via do IF, incluindo os recursos próprios do beneficiário final e subvenções e outros apoios combinados com o investimento mobilizado através do IF.

Total amount of support paid to final recipients, or to the benefit of final recipients, or committed in guarantee contracts by the financial V. instrument for investments in final recipients, by ESI Funds programme Section V has to be repeated accordingly for each financial product and priority or measure (Article 46(2)(e) of Regulation (EU) No 1303/2013)									
77	Name of each financial product offered by the financial instrument	text	Name of other product supported with programme resources and offered by the financial intermediary to final recipients. The name of other products should not be confused with the name of the financial intermediary.						
22.1	Type of financial product offered by the financial instrument	Selection	(a) loan (b) guarantee (c) equity (d) other support combined within the financial instrument If the fund of funds (FoF) signed with the body implementing the financial instrument (the financial intermediary) only one funding agreement for different types of loan product (for example: loans for SMEs and microloans), we suggest to group them together in one field 22.1 a). Example: in 2015 FoF signed with the body implementing the financial instrument a funding agreement for two types of loan products: loans for SMEs and for microloans. For this case, field 22.1 a) should be selected only once: together for loans for SMEs and for microloans. If the FoF signed with the same body implementing the financial instrument (the financial intermediary) a separate funding agreement for each type of loan product, the field 22.1 a) should be repeated as many times as many funding agreements for different types of loan products have been signed. Other financial products should be reported under either Loan, Guarantee or Equity.	Indicar que se trata do produto do tipo "Other support combined within the financia instrument".					
25	Total amount of programme contributions paid to final recipients through other products (in EUR)	number (amount in EUR)	Total amount of programme contributions should be the sum of 25.1, 25.2 and 25.3. To be calculated by the system. Only amounts of the programme resources should be reported. Other resources (e.g. commercial bank resources or additional regional contributions) which contribute to this product but do not constitute part of the programme should not be reported here. This row refers to the programme resources effectively disbursed, means paid into the account of the final recipients. For other products the amounts of programme contributions that has been paid out for the benefit of the final recipient has to be reported here. Generally resources returned to the operation from investments in final recipients are not considered programme contributions. Consequently, resources returned to the operation and reinvested in final recipients shall not be reported under 25. De salientar que a opção "other support combined with a financial instrument" não deverá ser selecionada de forma isolada, na medida em que a mesma é complementar aos demais produtos disponibilizados, nomeadamente "Empréstimos" e "Garantias". Para uma melhor compreensão dos requisitos aplicáveis à combinação de apoios por via de IF e de outras formas de apoio, recomenda-se a leitura da Nota EGESIF 15_0012-02, de 10/08/2015. nstrum ee subs	support combined within the financial nent: grant, interest rate subsidy, guarantee sisidy pursuant to Article 37(7) of Regulation o 1303/2013	text	This field is only to be used if financial instruments are combined with other forms of support in a single operation. (the field becomes active only if option 'other support combined within a financial instrument' is selected in line 9) By "grant" we refer to technical support as it is the only grant, which can be part of the financial instrument operation and can be reported here.	Campo a preencher se a opção "other support combined with a financial instrument" for selecionada no campo 9. As opções são: subvenção, bonificação das taxas de juro e bonificação da comissão de garantia. Por subvenção entende-se o designado apoio técnico que é feito ao nível do intermediário financeiro a favor do beneficiário final, sem que haja qualquer repasse para o mesmo. As bonificações das taxas de juro e das comissões de garantia terão de fazer parte do mesmo pacote financeiro dos investimentos feitos ao nível dos beneficiários finais em empréstimos e garantias. Quer isto dizer que a contribuição dos Fundos alocada a um determinado IF servirá, não só para investir ao nível dos beneficiários finais através de empréstimos e garantias, mas também para suportar uma componente que acabará por ser "não reembolsável", através da prestação do citado apoio técnico a favor dos beneficiários finais e da bonificação das taxas de juro e das comissões de garantia, desde que integrados numa única operação. Uma vez mais se sugere a leitura da Nota EGESIF 15_0012-02, de 10/08/2015, na medida em que esta combinação para ser possível, deverá obedecer a determinadas condições e critérios, desde logo estar pevista na avaliação ex-ante. 41.1 Target value of the output indicator	number	Target value of the output indicator should be based on the target value of the output indicator defined in the Funding Agreement. For ERDF and Cohesion Fund this refers to the figures to be reported according to Implementing Act EU 2015/207 Article 5 in Table 3A "Common and programme specific output indicators for the ERDF and the Cohesion Fund" in the row "Cumulative value - selected operations [forecast provided by beneficiaries]"	Valor alvo a atingir pelos indicadores indicados, com base no estabelecido no Acordo de Financiamento. No caso do FEDER e do FC, refere-se ao valor do Quadro 3A do Relatório, para as operações selecionadas.	
Value achieved by the financial instrument in relation to the target value of the output indicator	number	Value achieved by the financial instrument in relation to the target value of the output indicator. The total value of the indicator should be provided also in case the value is achieved in combination with other form of support in two separate operations. For ERDF and Cohesion Fund this refers to the figures to be reported according to Implementing Act EU 2015/207 Article 5 in Table 3A "Common and programme specific output indicators for the ERDF and the Cohesion Fund" in the row "Cumulative value - fully implemented operations [actual achievement]"	Valor atingido pelo instrumento financeiro em relação ao valor alvo do indicador de realização indicado. No caso do FEDER e do FC, refere-se ao valor do Quadro 3A do Relatório, para as operações totalmente executadas.

v.	Total amount of support paid to final recipients, o final recipients, or committed in guarantee contra instrument for investments in final recipients, by I programme and priority or measure (Article 46(2) (EU) No 1303/2013)	cts by the financial ESI Funds	Section V has to be repeated accordingly for each financial product	
22	Name of each financial product offered by the financial instrument	text	Name of loan supported with programme resources and offered by the financial intermediary to final recipients. The name of loan should not be confused with the name of the financial intermediary.	O nome do produto "Empréstimo" disponibilizado pelo instrumento financeiro específico apoiado pelo FdF ao beneficiário final deverá ser indicado neste campo.
22.1	Type of financial product offered by the financial instrument	Selection	(a) loan (b) guarantee (c) equity (d) other support combined within the financial instrument If the fund of funds (FoF) signed with the body implementing the financial instrument (the financial intermediary) only one funding agreement for different types of loan product (for example: loans for SMEs and microloans), we suggest to group them together in one field 22.1 a). Example: in 2015 FoF signed with the body implementing the financial instrument a funding agreement for two types of loan products: loans for SMEs and for microloans. For this case, field 22.1 a) should be selected only once: together for loans for SMEs and for microloans. If the FoF signed with the same body implementing the financial instrument (the financial intermediary) a separate funding agreement for each type of loan product, the field 22.1 a) should be repeated as many times as many funding agreements for different types of loan products have been signed. Other financial products should be reported under either Loan, Guarantee or Equity.	Indicar que se trata do produto do tipo "Empréstimo". Na eventualidade da Autoridade de Gestão ter assinado apenas um Acordo de Financiamento com um intermediário financeiro que disponibiliza mais do que um tipo de produto "Empréstimo", a CE sugere que os mesmos sejam agrupados num único grupo.
24	Total amount of programme contributions committed in loans contracts with final recipients (in EUR)	number (amount in EUR)	Total amount of programme contributions committed in signed contracts for loans with final recipients should be reported here. Generally, if the financial instruments were also financed from other resources (e.g. commercial bank resources or additional public contributions) which do not constitute part of the programme, those resources should not be reported here. This field is used to monitor the progress of instruments, such as urban development funds, where there is a significant time gap between commitment and payment of the full amount to final recipients.	Campo no qual deverá ser indicado o montante da contribuição do Programa comprometida em contratos de empréstimo assinados com os beneficiários finais Verbas extra Programa que sejam mobilizadas, por exemplo, por empréstimos comerciais que não via IF, não deverão ser reportadas neste campo.
24.1	out of which total amount of ESI Funds contributions (in EUR)	number (amount in EUR)	This section relates only to the part of the amount indicated in field 24, which is provided from the ESI Funds.	Diz respeito ao montante dos Fundos que decorre do valor indicado em 24.
25	Total amount of programme contributions paid to final recipients through loans	number (amount in EUR)	Total amount of programme contributions should be the sum of 25.1, 25.2 and 25.3. To be calculated by the system. Only amounts of the programme resources should be reported. Other resources (e.g. commercial bank resources or additional regional contributions) which contribute to this product but do not constitute part of the programme should not be reported here. This row refers to the programme resources effectively disbursed, means paid into the account of the final recipients. Generally resources returned to the operation from investments in final recipients are not considered programme contributions. Consequently, resources returned to the operation and reinvested in final recipients shall not be reported under 25.	Montante total da contribuição do PO transferida para a conta do beneficiário fina no âmbito do produto "Empréstimo", resultando este valor em SFC do somatório valores dos campos 25.1, 25.2 e 25.3. Deverão apenas ser indicados os montantes relativos à contribuição do Programa.
25.1	out of which total amount of ESI Funds contributions (in EUR)	number (should be calculated by the system)	Total amount of programme contributions should be the sum of fields 25.1.1 - 25.1.5. The sum of fields 25.1.1 - 25.1.5 should be calculated by the system. This field relates only to the part of the amount indicated in field 25, which was provided from the ESIF.	Diz respeito ao montante dos Fundos que decorre do valor indicado em 25 e será calculado automaticamente pelo sistema com base nos valores inscritos nos cam 25.1.1. a 25.1.5
25.1.1	out of which ERDF (in EUR)	number (amount in EUR)	Total amount of ERDF paid to final recipients	Diz respeito ao montante de FEDER transferido para a conta do beneficiário final.

39	Expected and achieved leverage effect, by reference to the funding agreement								
39.1	Expected leverage effect for loan, by reference to the funding agreement	number	The amounts used for calculating the expected leverage should be based on the amounts in the funding agreements. Leverage is defined as 'the amount of finance to eligible final recipients divided by the amount of the ESIF contribution'. The method of calculating leverage will be described in detail in the Guidance Note on reporting and leverage.	Campo no qual se deverá indicar o rácio de alavancagem expectável com base no Acordo de Participação.					
39.2	Achieved leverage effect at the end of reporting year for loan	number	To be calculated by the system (amounts of programme and non-programme resources mobilised by ESI Funds at the level of final recipients divided by the ESIF paid to final recipients). The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NB! The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cutoff date of 31/12/2017) onwards. [* For the purpose of the reporting exercise 2017 (data with the cut-off date of 31/12/2016) the formulae for the automatic calculation of achieved leverage are applied at the fund level (see formulae at the end of the table)].	Campo de cálculo automático do sistema, com base nas opções e valores registados nos vários campos relativos a cada um dos Produtos associados ao instrumento financeiro.					
			In the structure without fund of funds (SF), if loan in 22.1, then $ \text{Achieved leverage }_{\text{loan}} = \frac{(25.1_{\text{L}} + 38.3_{\text{L}})}{(25.1_{\text{L}} + ((25/15_{\text{SF}})^*17_{\text{SF}} * (14.1_{\text{SF}}/14_{\text{SF}})))} $	Fórmula utilizada pelo sistema caso a opção em 22.1 seja "Empréstimo", no modelo instrumento financeiro específico implementado por via de um Fundo de Fundos. Por uma questão de prudência, sugere-se que a fórmula apresentada seja testada, para confirmação do valor que será assumido em SFC.					
39.3	Investment mobilised through investments made by ESIF financial instruments for loan	number (amount in EUR)	The Financial Regulation provides a definition of leverage of the financial instrument which does not capture the total amount of investment mobilised through ESIF financial instruments but rather the financing provided. In order to report on the wider impact of financial instrument it would be useful to have additional information to capture the overall impact of the investment. The total size of the project supported by the ESIF financial instrument should be reported in this field. The total amount of the project, in addition to the financing provided by the financial instrument, may include own contributions of the project promoter or other means of financing raised outside the financial instrument. The amount may also include other support, for example, national grant or a grant from ESI Funds.	Campo opcional no qual se deverá indicar o montante total do projeto apoiado por via do IF, incluindo os recursos próprios do beneficiário final e subvenções e outros apoios combinados com o investimento mobilizado através do IF.

The following formulae are used to calculate achieved leverage for different products and taking into account respective implementation options. NB! The formulae for automatic calculation of achieved leverage by product (see below) will be applied in SFC2014 as of 2018 reporting exercise (data with the cutoff date of 31/12/2017) onwards. 9.3	Investment mobilised through investments made by ESIF financial instruments for quasi-equity investment	number (amount in EUR)	The Financial Regulation provides a definition of leverage of the financial instrument which does not capture the total amount of investment mobilised through ESIF financial instruments but rather the financing provided. In order to report on the wider impact of financial instrument it would be useful to have additional information to capture the overall impact of the investment. The total size of the project supported by the ESIF financial instrument should be reported in this field. The total amount of the project, in addition to the financing provided by the financial instrument, may include own contributions of the project promoter or other means of financing raised outside the financial instrument. - 1	Value of investments and participations in equity (in EUR)	number (amount in EUR)	The value of equity investment made with ESIF resources at the end of the reporting year. The book value of the participation according to the applicable accounting rules should be used. Example of calculation: Book value = nominal value of investments +/- fair-value movement - impairments of assets. Changes in terms of value can be calculated in comparison to amounts reported in previous years and additional investments in final recipients The value of equity investment changes over time. This change of value should be reflected in the accounting of the equity fund and the reporting depending on the accounting method. 22.1	Type of financial product offered by the financial instrument	Selection	(a) loan (b) guarantee (c) equity (d) other support combined within the financial instrument If the fund of funds (FoF) signed with the body implementing the financial instrument (the financial intermediary) only one funding agreement for different types of loan product (for example: loans for SMEs and microloans), we suggest to group them together in one field 22.1 a). Example: in 2015 FoF signed with the body implementing the financial instrument a funding agreement for two types of loan products: loans for SMEs and for microloans. For this case, field 22.1 a) should be selected only once: together for loans for SMEs and for microloans. If the FoF signed with the same body implementing the financial instrument (the financial intermediary) a separate funding agreement for each type of loan product, the field 22.1 a) should be repeated as many times as many funding agreements for different types of loan products have been signed. Other financial products should be reported under either Loan, Guarantee or Equity.	Indicar que se trata do produto do tipo "Garantias".
24	Total amount of programme contributions committed/blocked for guarantee contracts signed (in EUR)	number (amount in EUR)	Programme contributions blocked (committed) in <u>guarantee</u> contracts signed, irrespective whether the loan was disbursed or not to final recipient should be reported here. Generally, if the financial instruments were also financed from other resources (e.g. commercial bank resources or additional public contributions) which do not constitute part of the programme, those resources should not be reported here. This field is used to monitor the progress of instruments, such as urban development funds, where there is a significant time gap between commitment and payment of the full amount to final recipients.	Campo no qual deverá ser indicado o montante da contribuição do Programa comprometido (bloqueado) em contratos de garantia assinados, ainda que os empréstimos não tenham sido desembolsados aos beneficiários finais. Verbas extra Programa que sejam mobilizadas por outras vias que não o IF, não deverão ser reportadas neste campo.
24.1	out of which total amount of ESI Funds contributions (in EUR)	number (amount in EUR)	This section relates only to the part of the amount indicated in field 24, which is provided from the ESI Funds.	Diz respeito ao montante dos Fundos que decorre do valor indicado em 24.
25	Total amount of programme contributions committed for loans paid to final recipients (in EUR)	number (amount in EUR)	Total amount of programme contributions should be the sum of 25.1, 25.2 and 25.3. To be calculated by the system. Only amounts of the programme resources should be reported. Other resources (e.g. commercial bank resources or additional regional contributions) which contribute to this product but do not constitute part of the programme should not be reported here. This row refers to the programme resources effectively disbursed, means paid into the account of the final recipients. For guarantees the amounts to be reported in row 25 correspond to the part of the programme contributions blocked (committed) in guarantee contracts signed, but only for loans which were disbursed to final recipients; irrespective whether the guarantee was called or not. In case of portfolio guarantees the amount should be a portion of guarantee committed for loans paid to final recipients in line with the multiplier ratio in line with Article 8 of CDR. Generally resources returned to the operation from investments in final recipients are not considered programme contributions. Consequently, resources returned to the operation and reinvested in final recipients shall not be reported under 25.	Montante da contribuição do PO comprometida (bloqueada) em contratos de garan assinados com desembolso de empréstimos para os beneficiários finais, resultando este valor em SFC do somatório dos valores dos campos 25.1, 25.2 e 25.3. As disposições previstas no artigo 8.º do Regulamento Delegado n.º 480/2014 aplica se aos instrumentos financeiros diretamente implementados pela AG, em conformidade com o previsto na alínea c) do número 4 do artigo 38.º do Regulamen n.º 1303/2013. Deverão apenas ser indicados os montantes relativos à contribuição do Programa.
